Hi,

My name is Olivia. I found my passion for design early on and started my pursuit of it as a professional career through university studies at IED Barcelona. After completing my studies, I returned to Sweden aspiring to take my merged influences of Mediterranean and Scandinavian design back to the north.

I work with art direction, marketing, brand identities, photography, packaging, and more. Here, I have collected a few of my projects. I hope you find them interesting and to get the opportunity to tell you more about them. I look forward to hearing from you and have a great rest of your day!

Best Regards,
Olivia Wärme

Take a look at a few of my projects and find my merits/CV at the end »

YG fair booths

In 2024, Yrkesgymnasiet's visual identity changed and new fair booths were produced. The design was adapted to both the booth's size and each school's program offering.

YG folder

Folders, varying in layout depending on which programs each school offer, were also made according to the updated graphic manual to be used for promotional work.

High school re-election

For Edukatus' high school election campaign 2025, school- and program specific letters (above are a few for Yrkesgymnasiet) and keychains were sent to potential future students.

Prints for TGY and YG

This slide displays a range of printed materials designed for Tekniska Gymnasiet (TGY) and Yrkesgymnasiet (YG), including a handbook, a programme sheet, and flyers.

Dirista

While paying homage to their previous graphics, a new brand identity, packaging, and photography for the perfume brand Dirista was revealed in 2025.

AquAuria

Packaging, opening experience and brand identity developed for AquAuria during my time at Matíz Barcelona.

Acqua Di Parma

Packaging and graphics for limited editions developed for Acqua Di Parma while working at Matiz Barcelona.

MAAR Fragrances

Aquarelle illustrations and labels for MAAR's bottles of body wash, shampoo, conditioner, body lotion, and hand wash while at Matiz.

Mobergsskolan web

For the new identity of Edukatus' schools, a website was built in Figma and launched in collaboration with their webmaster.

Dirista web

Following the reveal of a new brand identity, Dirista was also given a new website with their new art direction.
